SKILLS

Adobe Creative Cloud: Confident in producing packages and graphics on several Adobe platforms including Premiere, Audition, InDesign and After Effects.

Newsroom Experience: Confident in putting packages together for both television and radio. I am also skilled at requesting and undertaking interviews in a newsroom environment for stories.

Journalism Skills: Experienced in researching, writing, and recording stories for breaking news, accompanied by social media posts which link to the stories. Also experienced in producing long-form, more in-depth stories.

Communication & Teamwork Skills: Good communication and teamwork skills built through university Newsdays where everyone had to contribute to producing a radio/tv show to a deadline.

Independent Working: Producing self-made documentaries. Undertaking research, gathering interviews, writing and recording scripts and editing packages.

Industry Software: Experienced in using software such as Myriad 5 Payout in radio production. In tv I am confident in using ENPS (Electronic News Production Software). I also have experience at using autocue and managing sound and graphics within a tv studio.

EXPERIENCE

Mix 92.6: Currently reporting for this local radio station, conducting interviews, producing packages and undertaking live on air two-ways. Also helping present shows alongside other presenters.

NLive Radio: Researched, compiled, and read news bulletins and produced stories for the radio station's website.

BBC Look East: Wrote several bulletin scripts, researched stories, chose locations to report at and shadowed several reporters on stories.

Ben and Jack Studios: Produced a short documentary about a Para-Olympic athlete who took part in channel 4's SAS Who Dares Wins.

Radio Verulam: Helped with the research for a piece on current day pressures faced by local teenagers.

The Jonathan Ross Show: Work experience as a Runner on the day a live show was recorded.

EDUCATION
